### PROFESSIONAL SUMMARY

**09 years 0 Months** experience in family of **GIS/Photogrammetry** Software products allow me to create, compile, manipulate and perform calculation on large amount of geographic information and execution of typical mapping project, and work with management and users at all levels to determine needs and requirements for GIS applications.

Completed a well defined training program on Digital Photogrammetry in M/S. Geomatiques Aero Technology Pvt Ltd, that maintains an internationally unique program of modern systems for accurate 3D data capturing, visualization and modeling of space-related data with ultimate goal of performing Orientation/triangulation, Stereo feature/DTM extraction using Intergraph, Imagestation family of Photogrammetric applications.

### PHOTOGRAMMETRY PROFICIENCY

- ☛ In the projects, I am actively involved in compilation and Map finishing.
- ☛ To improve quality based on the feedback from daily quality control and daily database feedback report.
- ☛ Able to create numerous commands to collect and edit feature data and efficient map feature digitizing system.
- ☛ Able to collect digital terrain model (DTM), elevation points and break lines in stereo models and edit existing DTM data.
- ☛ Able to extraction automatic DTM Collection.
- ☛ Able to generate symbology conversion,
- ☛ To ensure that packing and delivery is done as per customer requirement.

### MAJOR PROJECT ACCOMPLISHMENTS

The Scope of projects includes various activities like **Digital Aero-Triangulation, DTM generation, Editing, Manual contour, Mobile mapping, Revision work, DTM/DEM etc.**

#### Organization profile:
